

Sage ERP X3 Multi-National Features Make it Easy

Sage ERP X3 makes it easy for your company to expand its presence internationally. The system supports multiple languages, currencies, companies, sites and legislations so you can run a sophisticated multi-site planning and distribution business in a multi-country environment as easily as a single domestic implementation. It is suited to multi-national companies wishing to develop their business in several countries without investing in a complex and costly global management system. Sage ERP X3 offers:

Built-in International Capabilities

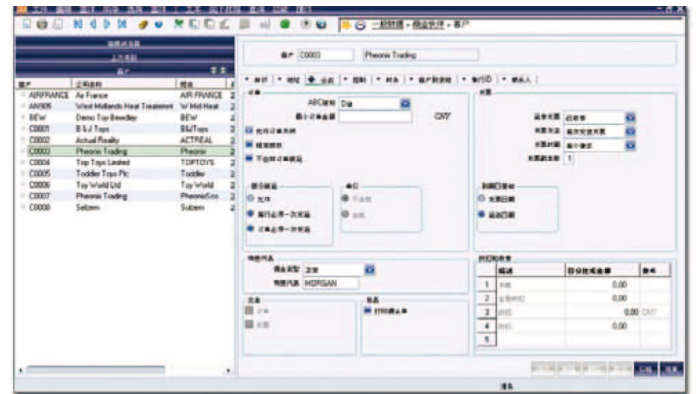

Designed to fit flexible mid-sized organisations, Sage ERP X3 is the system of choice for micro-multinational companies looking to develop their business in several countries without investing in a complex and costly global management system.

Sage ERP X3 supports multiple languages, currencies, companies, sites and legislations so you can run a sophisticated multi-site planning and distribution business in a multi-country environment as easily as a single domestic implementation. Each user can work in his own language on one single system. Sage ERP X3 also handles multi-lingual data based on the third party to whom they're addressed (titles of articles, invoice text, etc.).

Easy Multi-Country Set-Up

The application is available in eight languages and legislations – including USA, UK, France, Italy, Portugal, Spain, Argentina and China – allowing users to access the system in their own language wherever they are.

Country-specific parameters, such as legal and market requirements, are centralised to offer a single solution. Sage ERP X3 makes it easy to share common data and processes between different foreign sites or subsidiaries, while respecting their own specific usages and business rules.

Sage ERP X3 is available in eight languages and legislations, including Chinese

Quickly Operational

Sage ERP X3 provides country delivery sets including standard pre-settings to speed-up the implementation process in a new foreign site. Moreover, as a simple internet browser is sufficient for an authorised user to run the application, Sage ERP X3 allows your company to quickly provide a new office or plant with a fully operational management system without investing in costly IT infrastructure.

The scalability of the application allows you to organise a progressive international deployment, fitting your regional and/or functional priorities.

Worldwide Support Dedicated to Mid-Sized Companies

Sage ERP X3 is a solution developed and distributed worldwide by the Sage Group, a leading supplier of business management software and services to more than five million small and mid-sized customers. The company operates in 35 countries, providing the best local support to each customer.

Whether your project is centralised or locally-driven, you will find a Sage team able to support all of your branches locally as well as to provide you global assistance and reporting.

About Datel

Datel is Sage's largest Business Partner in the UK and is acclaimed as its leading systems integration specialist. Headquartered in Warrington, Datel also has offices in Leeds and the Netherlands employing a loyal team of over 140 highly-skilled people who look after its growing base of over 900 customers worldwide.

We specialise in:

- Sage ERP X3
- Sage 200
- Sage Line 500
- Sage ERP 1000
- Sage CRM
- SalesLogix

We also have our own in-house products which we have developed to integrate with, and sit alongside, Sage solutions. Known as Datel FUSION, the suite of products enhances and extends the functionality provided by the core Sage applications.

Datel looks after a broad ranging base of customers including those in the following sectors:

- Distribution
- Manufacturing
- Food and drink
- Chemical Processing

Typically they are mid sized companies who rely upon Datel to make the most of their investment with Sage.

We pride ourselves in our approach to doing business. We seek to know and thoroughly understand our customers and their businesses so, in turn, we can appreciate fully all of the issues and challenges they face. Only then can we presume to offer a solution that will make a real difference to the way they do business. Everything Datel does is guided by our belief in providing only the very best in customer service.
